

Photo control receptacle could be divided into British and American types and be manufactured as per BS5972 or UL773/ANSI C136.10 standard. In order to solve the problem that photo control could be installed in the best position, we innovatively developed new receptacle (such as LC-10R/3, LC-10R/6) with rotatable locking type and separate base. LC-10R/3 and LC-10R/6 allow installation staff in the street light field fasten the screws after selecting the best orientation.
